

## How to try Metall on Google Cloud Platform (free account)

1. Register for free tier
  1. Visit <https://cloud.google.com/>
  2. Click [Get started free]
  3. Sign in your google account or create a new one
  4. Input required information
    - Payment information will be asked even for free tier
    - No charges are made after this verification process, unless you upgrade to a paid Cloud Billing account. (<https://cloud.google.com/free/docs/gcp-free-tier>)
2. Launch cloud shell
  1. Click 'Cloud shell' button at the top-right corner

2. You will see shell at the bottom

3. Start tutorial programs

All basic commands are already available. You are ready to try Metall tutorial programs!
